

2025 Survey of Earned Doctorates

Institution Contact Job Aid

Welcome!

Welcome to the 2025 cycle of the Survey of Earned Doctorates (SED). The SED is an annual census of all research doctorate recipients from U.S. accredited institutions. The goal of the SED is to gather objective data about doctoral graduates in order to improve graduate education by providing governmental and private agencies with the information necessary to make program and policy decisions. In addition, participating institutions receive data about their own doctorate recipients which can be used for institutional program evaluation and improvement.

The survey is conducted by the National Science Foundation (NSF) in collaboration with the National Institutes of Health, the U.S. Department of Education, and the National Endowment for the Humanities. The SED data collection activities are currently contracted to RTI International.

Each institution awarding research doctorates appoints an institution contact (IC) who helps facilitate the administration and completion of the SED. Over the past few decades, ICs have successfully ensured extremely high response rates – above 90 percent – for the more than 50,000 research doctorate recipients who graduate each year. This commitment to data quality is critical to ensuring the integrity of these comprehensive data on U.S. research doctorate recipients.

ICAT Website

The SED Institution Contact Administrative Tool (ICAT) <https://sedsurvey.org/Home/ICAT> contains information and helpful tools to assist ICs in administering the SED on their campus. On the website, ICs can obtain survey materials to distribute to graduating research doctorates, transmit various SED forms and files, and maintain contact information for key personnel responsible for SED administration. Furthermore, ICs can view their school's response rate, SED document submission status, and students' survey response status.

The ICAT allows you to access the following:

- ✓ View informational brochures, current and past SED questionnaires, FERPA exemption letter, and the SED's Confidentiality and Privacy policy.
- ✓ Update contact information for Deans, Institution Contacts, and List Coordinators.
- ✓ The **SED Response Rate** table displays various counts for each graduation date provided on the graduation list(s).
- ✓ The **SED Response Status** table displays various student counts, including ineligible students and students who have completed the survey versus students who have not.
- ✓ The **Document Status** table displays all documents needed from your school and their current status.
- ✓ The **Student List** displays all students currently in the SED's records, along with their survey status (Complete, In Progress, Not Started, Receipted), for any open round of data collection.
- ✓ Send an **email** directly to any graduate who has not yet completed the survey.

IC Contact Information

If you are new to the IC role or your contact information has changed, please email your updated contact information to sed@rti.org.

Eligible Types of Doctorates

The SED includes **research doctorates** only; for this survey, a research doctorate is a doctoral degree that requires the completion of an original intellectual contribution in the form of a dissertation or an equivalent culminating project (such as a musical composition), and that is not primarily intended as a degree for the practice of a profession.

The PhD is the most common research doctorate degree.

Recipients of professional, practitioner, or applied doctorates – such as AuD, MD, DDS, DPT, JD, PsyD, DMin, PharmD and DNP degrees – are NOT included in the SED.

However, in some institutions, there are some doctoral degree programs that may be equivalent to the PhD, such as the Doctor of Education, Doctor of Science, and the Doctor of Engineering. Students with these degrees should be reported ONLY if the NSF has determined these particular degree programs at your institution are eligible for the SED.

If your institution has a medical school, please make sure that any research doctorates awarded through the medical school are included in the SED. If you have any questions about SED eligible degrees awarded by your institution, please call us toll-free at 1-877-256-8167.
